

Multiplication Study Log

Name: _____

Mastering multiplication facts is essential for 4th grade! In order to learn to multiply larger numbers, divide, and find equivalent fractions, your child needs to know the times tables quickly and without having to count on fingers. Please study with your child daily until these facts are mastered. Keep it fun by using different methods each day. Try flashcards, speed drill worksheets, oral drills (calling out problems and answers), and Internet websites like www.mathfactcafe.com. This will be collected the first week back to school.

Week 1	Study Method _____ Parent Signature _____	Minutes Studied
Week 2	Study Method _____ Parent Signature _____	Minutes Studied
Week 3	Study Method _____ Parent Signature _____	Minutes Studied
Week 3	Study Method _____ Parent Signature _____	Minutes Studied
Week 4	Study Method _____ Parent Signature _____	Minutes Studied
Week 5	Study Method _____ Parent Signature _____	Minutes Studied
Week 6	Study Method _____ Parent Signature _____	Minutes Studied
Week 7	Study Method _____ Parent Signature _____	Minutes Studied
Week 8	Study Method _____ Parent Signature _____	Minutes Studied

Week 9	Study Method _____ Parent Signature _____	Minutes Studied
Week 10	Study Method _____ Parent Signature _____	Minutes Studied
